Should you be seeking an apprenticeship in an occupational area not listed here, it may be offered by a national company. Please speak with the Careers Advisor who can give you more information. Alternatively your prospective employer may have experience of working with providers that are not local. Wherever a training provider might be based, they would visit you in your place of employment locally and if necessary subcontract to a local provider for some parts of your training.

If you are seeking an apprenticeship in your preferred occupational area then you need to make contact with the provider offering the appropriate training (see list above) they will keep you on file and inform you of vacancies. It is still important to try and find opportunities of your own with potential local employers and keep up to date with local employers and opportunities.

Also you need to register on the national website www.apprenticeships.gov.uk and check regularly for vacancies which tend to populate on the site in the spring of your leaving year.

If you need any further help or information please contact me in school any Monday or Tuesday in term time. r.green@scalbyschool.org.uk
