

SUCCESS

Designed and produced by the students of Scalby School

New Science rooms satisfy students

Scalby School recently re-designed three Science classrooms. This was to provide students with the best facilities possible and also the opportunity to enjoy working with exciting new equipment.

Abbie McCue, a Year 9 student, said, "I have lessons in one of the new science rooms and they have proven to be a safer, more pleasant place in which to learn. I love working in this classroom."

The classrooms are full of wonderful displays by students and Mr Malley, Second in Science, said "The science rooms are a great improvement and provide an excellent environment in which to teach and learn about science."

Outstanding examinations

Last year Scalby School students performed superbly once again in their examinations. 95% of them gained at least 5 qualifications at grades A* - C. 67% of students achieved at least 5 A*-C grades including English and maths. As Headteacher David Read said, "These excellent results are the product of a lot of hard work by our students and staff and we wish all our former Year 11s every success as they continue their education and training elsewhere."

Students' Saharan adventure!

Last summer some Year 11 students went to Morocco to trek in the mountains and also help build a community centre. They described this adventure as "The experience of a lifetime." One of the Moroccan organisers, called Said,

then visited Scalby School in March to inform our students about his country and their way of life. This included cooking traditional Moroccan food such as spiced chicken, which students and staff found to be delicious.

Let the games begin!

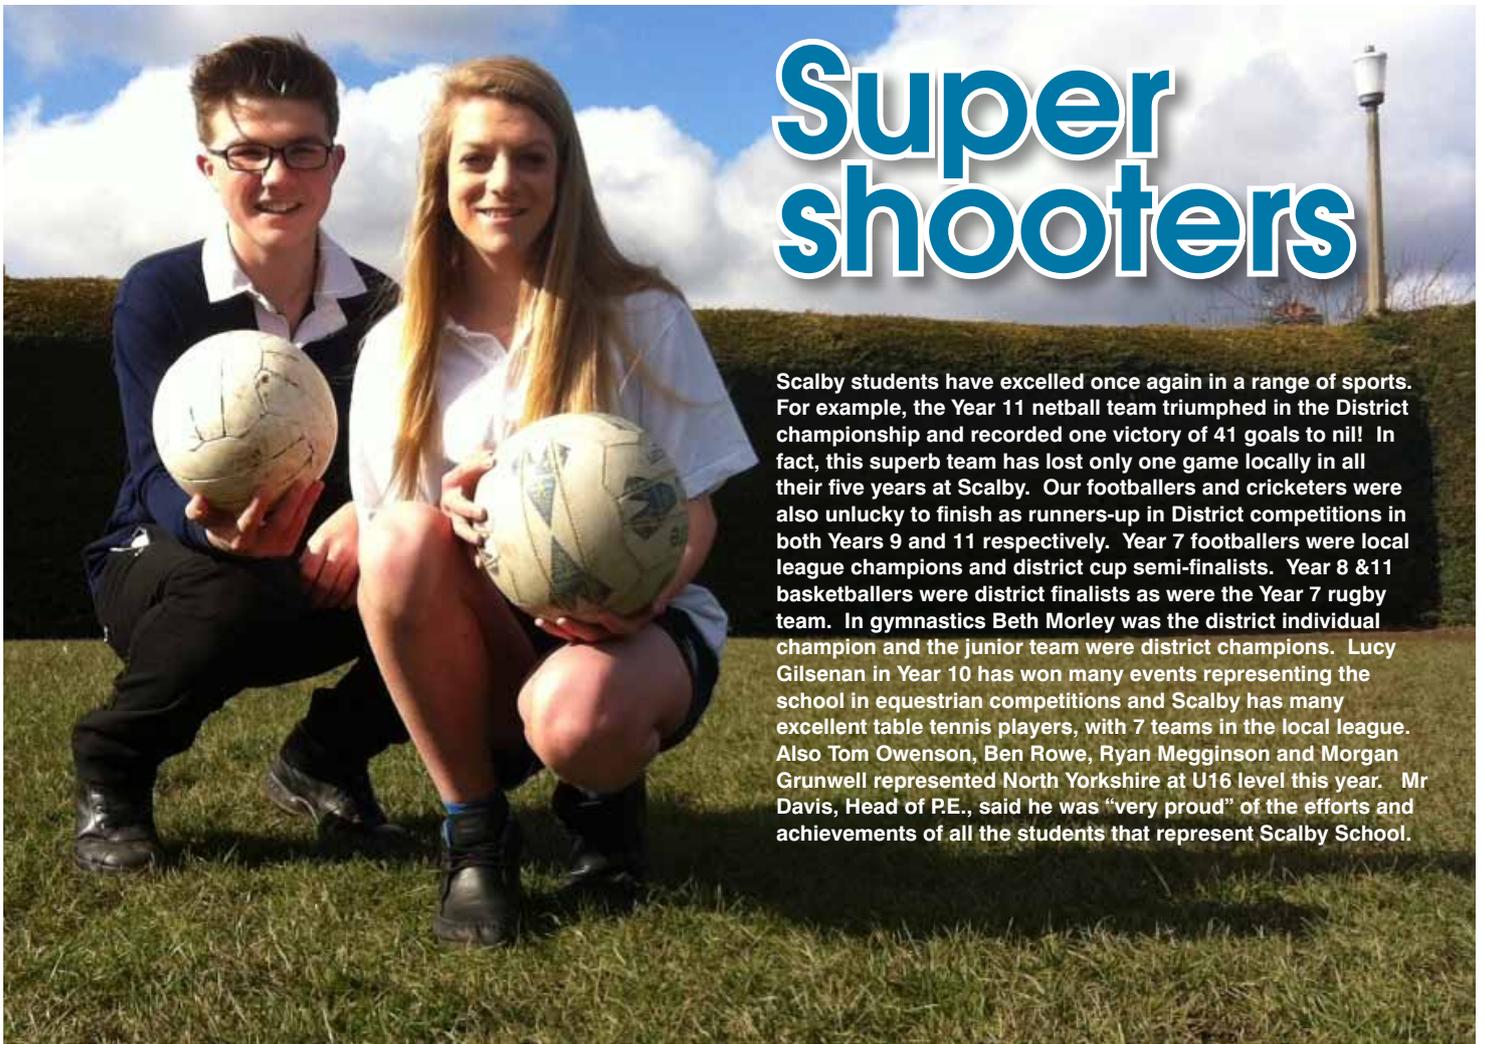

World Education Day takes place once a year. It provides an opportunity for students to test their ability in English, mathematics and science. Shannon Abbott and Amy Dover (pictured below) were two of the Scalby students who participated in this event. Amy said, "I found the maths games a great opportunity for me to find out if I have improved, which happily I had. It was also great fun."

Exploring Europe

Every year, Scalby students have the chance to go abroad as part of their wider education. In 2012, for example, Geography students went to Holland, French students visited Paris, History students made an excursion to the battlefields of Belgium while the P.E. Department took students skiing in Switzerland. Marcus Hollingsworth, a Year 9 student who visited Paris said, "It was a valuable experience that proved a useful addition to work in school."

Super shooters

Scalby students have excelled once again in a range of sports. For example, the Year 11 netball team triumphed in the District championship and recorded one victory of 41 goals to nil! In fact, this superb team has lost only one game locally in all their five years at Scalby. Our footballers and cricketers were also unlucky to finish as runners-up in District competitions in both Years 9 and 11 respectively. Year 7 footballers were local league champions and district cup semi-finalists. Year 8 & 11 basketballers were district finalists as were the Year 7 rugby team. In gymnastics Beth Morley was the district individual champion and the junior team were district champions. Lucy Gilsean in Year 10 has won many events representing the school in equestrian competitions and Scalby has many excellent table tennis players, with 7 teams in the local league. Also Tom Owenson, Ben Rowe, Ryan Megginson and Morgan Grunwell represented North Yorkshire at U16 level this year. Mr Davis, Head of P.E., said he was "very proud" of the efforts and achievements of all the students that represent Scalby School.

Spotlight on Saigon

Nearly 100 students took part in this breathtaking show that played to packed audiences at the Stephen Joseph Theatre for five consecutive nights. Henry Baxter who played one of the lead roles said, "It was a great experience and was so enjoyable. I think it will have a good impact on my career in the Performing Arts and I loved working with other students who I don't normally meet."
